versaAPAI

Increase Your Accounts Payable Efficiencies

A solution to ensure dealing with your invoices is a simplified, standardised, auditable and governed process.

With versaAPAI improving invoice processing efficiencies has never been as powerful. Your business will benefit from increased productivity and improved workflow. versaAPAI contains all the functionality you would expect of an Enterprise Level Solution, without the huge price tag. Standardise and automate the processing of all your incoming invoices received via email and output these into a single PDF.

Standardised

Centralise the process for incoming invoices via email.

Governed

Apply business rules to incoming invoice emails.

Streamlined

Improve productivity and efficiences across the AP team.

Visibile

Management reports for team workload capacity.
